

# GLO ZONE™

Leak Detection Products

{ 26 SuperGlo™ UV LEDs }

{ rotating lamp }

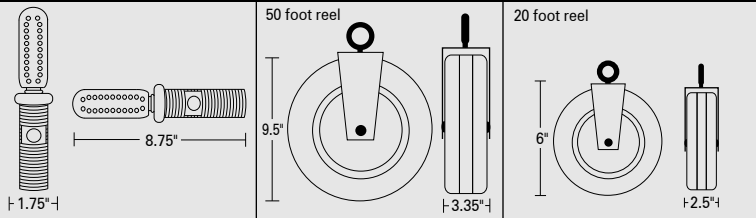

{ super compact design }

{ protected on-off switch }

{ comfortable ribbed grip }

{ 26 LED GloZone™ Leak Detection }

{ 26 LED GloZone™ Leak Detection }

{ features }

- 26 LEDs with SuperGlo™ technology produce very little visible light providing maximum dye glow.
- Lamp assembly and handle are very compact and can fit into extremity tight areas.
- Long Life LEDs are cool operating and extra durable
- A rubber boot protects the on-off switch in handle from dirt & grease
- Available in 12 volt DC and 120 volt AC models
- A variety of kits and GloZone™ dyes are available

- The 26 LED GloZone™ Light fluoresces dyes in A/C systems, water coolant systems, and any system containing petroleum based products.
- Shoulders on the 120 volt handle prevent a 12 volt lamp assembly from being mistakenly installed.

- The 26 LED GloZone™ Light is available on a commercial grade 50' reel which may be mounted on the ceiling or wall (mounting hardware is included).
- 26 LEDs with SuperGlo™ technology produce very little visible light providing maximum dye glow.
