## Stubby II® LED

Ever wish you had an LED light that actually performed as well as you thought it would? The Stubby II LED delivers the light you need and is built to last! The upgraded Stubby II LED serves as an everyday heavy-duty work light and has a bright flashlight to get light into tight spaces or shine light a distance. The Stubby II LED is built in the USA. Give one a try, you will be glad you did!

### { Features }

- Side LEDs are rated at 6-watts and deliver 562 lumens of 5000K bright white light.
- 3-Watt LED end flashlight provides 125 lumens of 5000K light.
- Lite Smoothing Technology™ eliminates shadows and prevents piercing light in the user's eyes
- Ruggedized electronic driver in the handle is designed to last in commercial and industrial applications.
- The LEDs are rated at 50,000 hours life.
- Covered on-off switch in handle operates side and end LEDs.
- Twin steel hook is unbreakable and rotates around the light to direct light where it is needed.
- Models are available with Polycarbonate or X-Treme Shield™ chemical resistant outer tube.
